Forecast for Saturday 03 Jul 2021

Weather: Cloudy overnight with patchy light rain and extensive hill fog. The rain will gradually die out during Saturday morning to leave a mostly dry afternoon and evening with some bright spells developing.

Chance of cloud free mountain/hill tops above 700m: Little change improving 50% during afternoon.

Visibility: Poor for a time during the morning with clouds well down the hills. The visibility will become good in many areas during the afternoon with clouds lifting and breaking a little. However it will stay misty in east of area with some low cloud lingering.

Meteorologist's View

Western areas will see the best conditions in the afternoon, with misty damp weather lingering in the east.

Forecast for Sunday 04 Jul 2021

Weather: Sunday will start off mostly dry and bright with sunny spells although still some mist and low cloud in east of area. A few showers will break out in the afternoon and early evening with an isolated heavier one possible.

Maximum wind: Light southerly winds on the tops, average speeds of 10 to 15mph.

Chance of cloud free mountain/hill tops above 700m: 60%, best in west of area.

Visibility: Generally good with occasional cloud cover about 600 to 700m, lifting above the tops at times. Patches of poor visibility in east of area during morning and in afternoon showers.

Temperature: **Valleys:** 13 Celsius at dawn rising to 21 Celsius by early afternoon.
At 700m: Plus 12 Celsius.
Freezing level: Well above the tops.
